Sir:

Petitioner, Allan A. Fanucci, represents that he is the attorney of record for the present application.

Petitioner states that he has reviewed the assignment documents recorded on June 25, 2003 at Reel 014232 Frame 0976 for this application and confirms that Pharmos Corporation is the owner of both the above-identified application and US patent 6,610,737. The patent is also owned by Pharmos Corporation by virtue of an assignment from the inventors that was recorded November 26, 2002 at reel 013545 frame 0028.

Petitioner hereby disclaims the terminal part of any patent granted on the above-identified application that would extend beyond the statutory patent term for U.S. Patent 6,610,737, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that any patent granted on the present application and U.S. Patent 6,610,737 are commonly owned.

Petitioner further agrees that this agreement is to run with any patent granted on the above-identified application and is to be binding upon the grantees, their successors, and their assigns.

Petitioner does not disclaim any terminal part of any patent that issues on the above-identified application prior to the expiration date of U.S. Patent No. 6,610,737 in the event that that patent is held unenforceable, is found invalid, is statutorily disclaimed in whole or in part or is terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration of its full 20 year statutory term, except for lack of common ownership as stated above.

Petitioner hereby declares that all statements made herein of his own knowledge and belief are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application and any patent issuing thereon.
